ON-LINE ESTIMATOR

Our Innovative On-Line Estimator makes estimating quick and easy. [Click Here](#) for more information

Clare Randall-Smith & Associates Limited has been providing reliable mechanical and electrical costing services since 1969 to an international client base.

The firm's primary function is to provide construction budgets, effective cost control, and final detailed estimates.

In addition, CRS also provides a significant range of costing services, such as progress draw processing, claim dispute resolution and change notice review.

In these roles, the company has been involved with well over 4,200 projects encompassing almost every type of building.

Clare, Randall-Smith & Associates Limited is proud of its principals and staff, all of whom are conversant with design and therefore able to communicate with the design team (architects, engineers, project managers, etc) in a 'peer to peer' capacity.

Colin Randall-Smith is Chairman & CEO of Clare, Randall-Smith & Associates; Bryan Hilker is President; Gil Mathieu is Vice-President and head of the mechanical division and Nick Boutselis is Vice-President and heads the electrical division.

All four gentlemen have extensive experience in their field, enabling them to produce accurate estimates that are used by design teams at every stage of a project, as well as the skills to resolve construction cost issues.

Colin, Bryan, Gil and Nick are all members of the Canadian Institute of Quantity Surveyors and the Ontario Institute of Quantity Surveyors. The firm is a founding member of the Ontario Association of Consulting Quantity Surveyors
