The Little Things That Can Mean A Lot

When It Comes To Caring For An Elderly Loved One, It's Always The Little Things That Can Mean A Lot.

The Advantages To Choosing Silver Homecare... All Designed To Give You A Worry-free Night's Sleep

One of the most important benefits that Silver Homecare can offer is companionship.

---Because no matter how much you care for your loved ones, there simply never seem to be enough hours in the day to provide them with the companionship and caring you feel they truly need.

With a caregiver visiting on a regular basis, your loved one will receive the attention and assistance they need.

This, in turn will give them confidence as well as the ability to remain at home longer and stay connected with family, friends and neighbours.

There is really no way to measure how much more meaningful life will be for your loved one with the right amount of assistance with the everyday things that need to be taken care of. And the companionship and friendship our caregivers provide.

Like many of our clients, your loved ones will find our service provides them with a new lease on life and eases their mind about the 'burden' they could be becoming in your life.

We like to think of it as a real win-win situation, where your loved ones get the assistance they need to maintain their lifestyle and dignity, and you get the peace of mind that comes from knowing you are doing all you can to help.

You Will Always Have Real Peace Of Mind Knowing Your Loved Ones Aren't Just Being Very Well Cared For, They Are Also Being Cared About.

At the core of the services we offer, there is a warm, trusting and caring relationship between our caregivers and the elderly individuals they care for.

There has to be in order for everyone to feel happy and secure. To ensure this, we have a very careful and thorough screening process for our caregivers. They are bonded and insured as well. And to maintain continuity and reduce stresses, we guarantee that each person being cared for always has the same caregiver.

Over the years, we have found that this friendship and trust is extremely beneficial to the health and well being of all those for whom we care.

We Make 'Getting Started' As Simple & Easy As Possible.

When you decide to use our services, the process of getting started is also worry free.

We will handle all the administrative aspects including paperwork, benefits, scheduling, insurance, etc. All we require from you is a refundable service deposit and prompt payment of our invoices twice a month.

At our initial meeting, we will address all your questions and explain our Service Agreement so everyone has a complete understanding of the services to be provided.
